

Expanded StudyBuddy Wireframes

Sketch 1: Dashboard Overview

The main StudyBuddy dashboard displays workload heatmaps and upcoming deadlines.

Sketch 1A: Dashboard - Clicking on 'Courses'

When the user clicks on 'Courses' in the sidebar, the system transitions to the courses page showing all enrolled subjects and their progress overview.

Sketch 1B: Dashboard - Clicking on 'Tasks'

When the 'Tasks' button is clicked, the interface focuses on all pending and completed assignments, integrating the heatmap to show task intensity.

Sketch 2: Task Management Page

This page shows all tasks with details and progress tracking.

Sketch 2A: Clicking a Task

Clicking on a specific task expands it into a detailed task view, showing subtasks, comments, and file attachments.

Sketch 2B: Clicking 'Add Task'

When the user clicks 'Add Task', a modal appears allowing input for new task details, deadline, and time estimate.

Sketch 3: Import Syllabus Tool

The tool imports assignment dates from uploaded syllabus files and previews them for confirmation.

Sketch 3A: Clicking 'Import'

When the 'Import' button is clicked, the system parses the file and populates a detailed preview of extracted deadlines.

Sketch 3B: Clicking 'Save to Dashboard'

After reviewing parsed deadlines, clicking 'Save to Dashboard' integrates them into the user's calendar and dashboard deadlines section.
